

### 46th Demo Council Names Chief

Mrs. Milford G. Wyman, San Pedro, was elected chairman of the 46th Assembly District Democratic Council at the September meeting of the group. She was mailing chairman of the 46th Assembly District during the recent presidential campaign and is a delegate to the council from the Women's Division of the Democratic State Central Committee.

Mrs. Wyman did undergraduate work at the Northwestern University School of Speech, Evanston, Ill., and received a master of arts degree in English from UCLA. She has served as secretary of the Ocean View Democratic Club

and is now public relations director of the Women's Auxiliary of the San Pedro Community Hospital.

**NEWLY ELECTED** vice-chairman is Barry Siegel of Westchester. Siegel is president of the Westchester Democratic Club, a member of the Westchester Junior Chamber of Commerce, Town Hall, and the American Rocket Society. He is a graduate of the University of Minnesota with a bachelor of science degree in engineering and has been employed by Douglas Aircraft Co. in its missile and space division since 1957.

Re-elected as secretary was Mrs. George Mohler, San Pedro, who is a delegate to the council from the Ocean View Democratic Club. Theodore Bluestein, President of the El Segundo Democratic Club, was retained as treasurer.

The great man of the age is the one who can put into words the will of his age, tell his age what its will is, and accomplish it. What he does is the heart and essence of his age — he actualizes his age.

—G.W.F. HEGEL (1770-1831)  
German philosopher

### Cancer Society Offering Films, Speakers to Clubs

"Cancer education programs featuring films and doctor speakers are available without cost through the American Cancer Society Information Center located at 804 E. Manchester Blvd. in Inglewood," according to Mrs. Robert N. Stapleton, volunteer chairman.

"Many lives can be saved if people learn the importance of early detection of cancer and

cancer's warning signals," Mrs. Stapleton stated. "These life-saving facts can be learned by attending these film programs," she said.

Civic and fraternal organizations planning a fall program are requested by Mrs. Stapleton to contact the American Cancer Society for the availability of titles of the films. The material is geared to all types of groups and age levels.

One of the society's films on smoking is widely used by teen-age organizations.

"An important part of each program is the 'question and answer period' after the film which is conducted by one of the American Cancer Society volunteer doctor speakers," Mrs. Stapleton concluded.

The American Cancer Society public education program is supported by a large group of volunteer doctors.

Those interested in arranging for these programs for their club or organization should write or call the society.

**CROSS UNVEILED** . . . Sculptor Paul Salsberg (left) and the Rev. Gilbert Zimmerman, pastor of the First Methodist Church, admire new cross unveiled in ceremonies Sunday at the new church sanctuary, El Prado and Manuel Ave. The cross, designed by Salsberg, dominates the interior of the new edifice. ### Lesson-Sermon For Today on 'Unreality'

"Hath not God made foolish the wisdom of this world?" Paul's searching question to the Corinthians is the Golden Text keynoting the Sunday lesson-sermon on "Unreality."

The importance of distinguishing between sound and unsound thoughts will be brought out at all Christian Science church services.

Scriptural citation in the sermon will include these verses from Psalms, "I hate vain thoughts: but thy law do I love . . . Thy righteousness is an everlasting righteousness, and thy law is the truth."

In the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy explains, "The suppositional warfare between truth and error is only the mental conflict between the evidence of the spiritual senses and the testimony of the material senses, and this warfare between the Spirit and the flesh will settle all questions through faith in and the understanding of divine Love."

### Trojan Ace Breaks Dandoy's Run Mark

When Willie Brown scooted 93 yards from scrimmage Friday night to set a new Trojan record, he erased an eight-year-old record held by Aramis Dandoy of Torrance who raced 90 yards for a touchdown against Washington State in 1953.

Before enrolling at USC, Dandoy was one of the all-time great players at Torrance High School.

### Ghana Student

The Hollywood Riviera Democratic Club will present Alex Quarmin, a citizen of Ghana, at the Tuesday meeting at 8 p.m. at the Ra-Von, 228 Avenue I, Redondo Beach.

Quarmin is in the United States to complete his master's degree in radio and television, the profession he will pursue on his return to Ghana. His timely topic will be "Africa Today."

The public is invited to this informative non-partisan meeting, according to Mrs. Sidney Rosenberg, secretary for the club.

### Women Ask For Six More Supervisors

Changes in the Los Angeles County charter which would result in increasing the Board of Supervisors from five to a limit of 11 members are being sought by the Los Angeles County Council of the League of Women Voters following an intensive two-year study of the county government.

Also being sought by the league are provisions for separation of policy-making, legislative powers within county government from those of administration. Under the proposed program, the Board of Supervisors would retain its policy-making and legislative powers but would be stripped of administrative authority.

**CREATION OF** an administrative officer to handle administrative duties currently within the province of the Board of Supervisors is urged in order to enable the Board of Supervisors to concentrate more effectively on problems of representation, taxation, legislation, and policy-making.

With supervisors being elected on the basis of population from districts which are contiguous and compact, citizens would have freer access to their supervisors, according to league proponents.

You have but two topics, yourself and me. I am sick of both.
